

A fearsome creature

What is the name of your creature?

Describe what your creature looks like. Think of real or made-up words to describe the head, neck, body, legs, arms and feet.

Think about your creature:

How does your creature behave? How does it see, feed, breathe, hear, smell or move?

What is its home like? Is it a nest? A burrow? A cave? A mountain-top? A watery place?

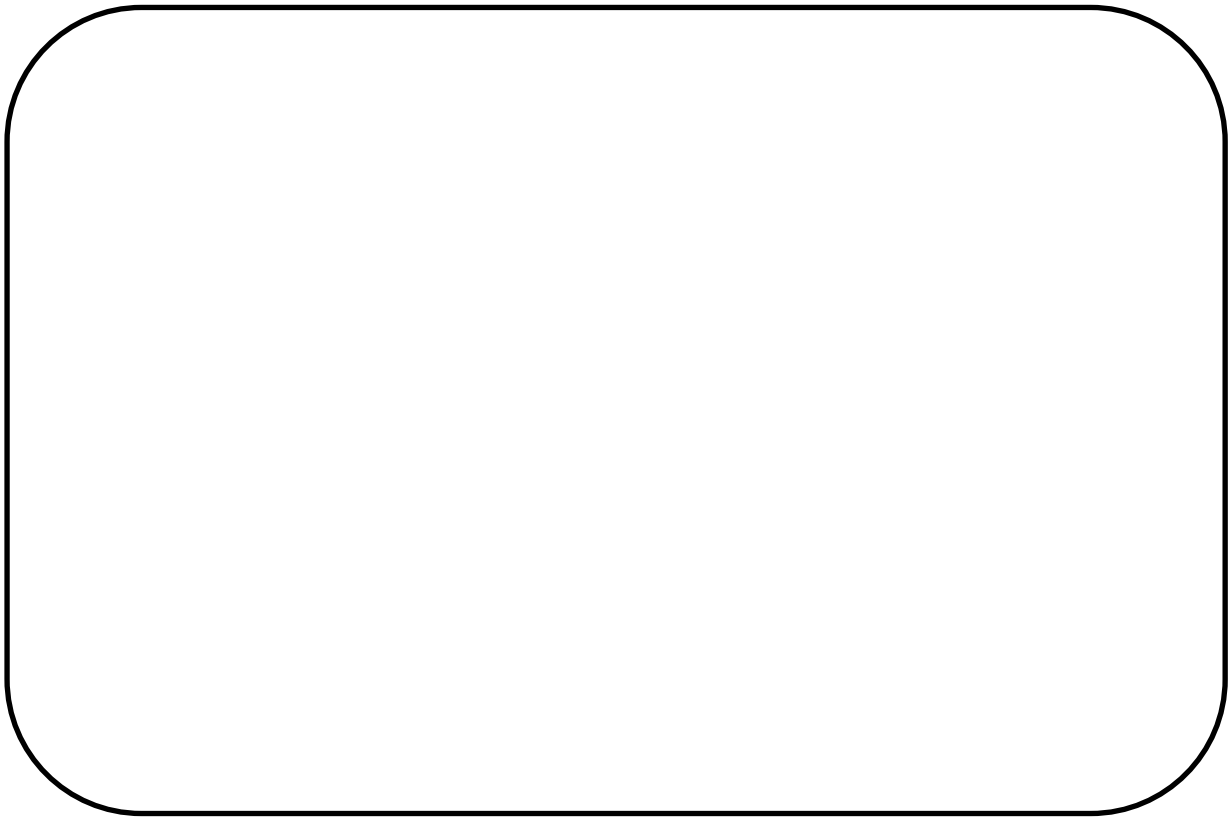

Does it give birth to live babies or does it lay eggs?

What does it eat?

Does it have any special powers? What are they?

How would you feel if you met this creature? Would you be scared? Excited? Interested?

Draw your creature in this box:
